Important Notice

Before continuing, please backup your saves and profiles! This mod package contains Economic changing files, which will change the game's economy.

How To Backup

1. Head to your American Truck Simulator folder in your Documents.
2. Copy the folders "profiles" and "steam_profiles", to somewhere safe (Desktop maybe?)

How To Revert

1. Head to your American Truck Simulator folder in your Documents.
2. Copy and paste the previously backed up folders "profiles" and "steam_profiles".
 - a. If prompted, click Replace All.

Loading

Ensure you select the correct save/autosave when prompted about missing mods!

After Download

After downloading the modpack, open the downloaded .zip file with Windows Explorer, Win-RAR, 7-Zip, or any other archive extractor.

Included Files

- Outlaw Shipping - Paint Jobs & Accessories.scs (ATS Mod File)
- Mod Pack Installation Guide (This PDF)
- Mod Pack Change Log (PDF)

How To Install

- Navigate to your Documents folder.
 - Open the folder called “American Truck Simulator”.
 - There would be a “mod” folder, if there is not, simply create one.
 - Now copy over the “Outlaw Shipping - Paint Jobs & Accessories.scs” file to your “mod” folder.
-

Mod Load Order

It is recommended to set the priority for this package higher than any other Economic mod due to the changes this package offers. If you prefer another Economic mod, set the load order accordingly.

Updates and Updating

Updating via Trucky Mods

With the 2024.1 update, Outlaw Shipping’s Paint Jobs and Accessories package will be hosted on the TruckyMods website. In order to download and update, download the Trucky for windows application (Same application we use for our VTC system), and head to “Mod Manager” then head to the “Mods for ATS”, and simply search for “Outlaw Shipping.”

Trucky will Automatically update mods you install via the Trucky Mod Manager!

Updating via Third Party Download

With the 2024.1 update, Outlaw Shipping’s Paint Jobs and Accessories package has dropped support for Third Party Downloaded files (Ie Discord, ModHub, etc.)
